

CyberLearning System Requirements

- Minimum 500MHz Processor, 128 MB RAM
- Minimum display resolution 800x600
- Windows 2000, XP, Vista, or 7; Mac OS X v10.4 and later
- Internet Explorer 6.0 or higher; Firefox 3.0 or higher; Chrome 3.0 or higher; Safari 4.0 or higher. Course Administrators must use Internet Explorer 6.0 or higher
- 56K minimum connection; broadband (256 kbps or higher) recommended
- Windows Media Player 9.0 or higher
- JavaScript, popup windows and cookies enabled
- Adobe Flash Player 10.0 or higher recommended (required for browsers other than Internet Explorer. For users without Adobe Flash Player, a text only version is available)
- Sound card with speakers or headphones strongly recommended

Note: Because CyberLearning courses utilize pop-up windows, pop-up blockers must be disabled.

Enabling Cookies

In Internet Explorer:

1. Choose **Tools > Internet Options**.
2. Choose the **Privacy** tab.
3. Click the **Sites** button.
4. Enter **mindleaders.com** into the address line and click **Allow**.

In Safari:

1. Choose **Tools** (the gear icon at the upper right-hand corner) > **Preferences > Security**.
2. Make sure the setting for **Accept cookies** is set to **Only from sites I visit** or **Always**

In Mozilla Firefox:

1. Choose **Tools > Options > Security**
2. Click the **Exceptions...** button to the right of **Accept cookies from sites**.
3. In the field under **Address of web site:**, type mindleaders.com (no http:// or www) and click **Allow**, then **Close**.
